

ABOUT US

YouTheFuture is a youth empowerment community based in Pune, India, it was founded by Sushrut Waghmare and Tanish Khot in 2019.

Our mission is to help youth gain credibility and help them get heard through this platform. Our mission is to empower the youth, who will later turn into the adults of the world. The world needs purpose and purity, and the world can have it under strong and capable leadership. The youth are the leaders of the future, leading the world towards betterment.

YouTheFuture is community which promotes youth. Helps their words and voices reach out to people via different platforms!

We do podcasts and episodes with youth who are doing something different in their field.

Check out our Podcast on Apple Podcast, Google Podcasts and many more platforms.

We also print the writings from our page into attractive posters, so contact us if you want a poster!

Also check out our videos on Youtube- YouTheFuture.

MAY, 2020

Thank You!

Today is 1st May, you people might think what is so special about this day? This day is celebrated throughout the world as the Labour's Day or also known as May Day. Originally this day marked an ancient European spring festival but as time passed it came to be celebrated as Labour's Day or International Worker's Day. But today is 1st May 2020, we are going through a global crisis right now. And there is no better time than now to express our gratitude towards all the people working tirelessly to help the suffering stop. They are working together for one cause, to keep us safe.

We should pay our respects to the doctors and nurses who are in contact with the covid-19 patients daily and are risking their own lives so that those suffering can recover. Doctors and nurses who have families aren't able to meet their loved ones. We are all at home with our family and we don't understand what they are going through! Forget hugging their children they don't even get to see them. !

Hundreds of them have died just to help those in pain. Imagine that you just had a phone call with your 8-year-old son and in the next few minutes you get infected by covid-19 from a patient. And in the next few days you start feeling sick and you test positive and then you die. Just gone. You will just be spoken of like a doctor who died fighting covid-19 that's it. What about the son who thinks his dad is busy working? What is his mom going to tell him? It is so sad that these doctors are not getting any recognition at all. The doctors who risk their lives deserve the same respect as of those soldiers who die defending their country. These guys are nothing less than heroes to everyone. They should be awarded and respected enough.

Today we should be grateful for everything they have done till now!

Locked Live?

AN ESCAPE.

The Lockdown period is hard for all of us, not being able to perform our basic routines is killing us on the inside but, while many of us consider this a curse, some see this as an opportunity to give to the community we live in. We need to be there for each other in such difficult times and try to boost morales.

Heres such a story of Shravani Deshpande, hope you find this motivating.

I live my life on certain mottos. One of the most important motto that I live by is, "artists supporting artists". Quarantine has given us tons of free time. It made me wonder, how could we entertain people and promote the local artists together? This thought began by the thought of supporting my friends Baph, Himanshu Chavan, Atharva Bhome and many more. These people are amazing music artists !

As a result I thought of "LOCKED LIVE". Locked Live is an Instagram live event which promotes local artists and entertains the audience. First Locked Live was a 3 day event and I gathered 22 artists and it was a blast !

With this thought me and my friend Tanay Sapre created our account '@_voizer' on Instagram which gives a promotional platform for artists. I came up with Locked Live 2 because of the high demand and it was a huge success too !Unexpectedly, Voizer's posts have a reach of 500+ on an average and some have a 1000+ too!This little journey has taught me basic management skills. It also taught me how lack of management would result into a lesser reach. I've learnt that social media isn't just for texting people but could be very useful and interesting!These small steps of achievement in my life have always proven to make me stronger. They inspire myself and many others to pursue their passions !

It takes courage to take initiatives and be there for each other.

This unique initiative not only allowed people to entertain themselves and others but also provided a platform for upcoming artists to engage in.

A LITTLE SOMETHING FROM OUR SIDE.

DONATION DRIVE 2020

Who are the real heroes during this lockdown? What're we upto, when we talk about other people, as we sit comfortably in our sofas and grand chairs. What are we really upto? Nothing much, but a group of people are working hard. Working to ensure that WE remain same and sound.

The doctors, the police, all people in the healthcare industry. This is a tribute to all of them. Thank you so much to all the doctors and policemen.

To help out these people, a team originally based in Pune, Alien Production, started to work out and collect donations.

Their team includes Prem Kashid and his father Vijay Kashid, their friends Avdooth and Sparsh.

These guys started collecting donations. Using the platform and network YouTheFuture, Prem started sharing the message, collecting more than 19,000 Rupees.

Donating food to more than 80 nuclear families
across Pune, sufficient for a week!

The complete program was conducted under the
supervision of the police department. They are the
real heroes!

Cheers to the real heroes and your positive response
towards it. It really means a lot to us, and the
families that are fed.

This programme has been a huge success. We would
like to thank you all and are very grateful for all your
support.
